

decreased access to care, and receive lower quality care, when they do have access. As the economy continues to falter and as the unemployment rate spikes, millions of Americans are losing their health insurance. That state of affairs will only make the health disparities worse.

Since I took office over a decade ago, I have worked to secure and support legislation to address the healthcare crisis particularly those facing our struggling Medicare and Medicaid recipients.

I have worked tirelessly to expand health coverage, improve the diversity of our health workforce, improve data collection on health disparities and then help reduce those disparities by promoting accountability and strengthening the institutions that serve minority communities. We must close the gap in our minority, immigrant, and rural communities by addressing the disparities that currently exist.

#### HEALTH LEGISLATION SPONSORED/COSPONSORED

As a Member of the H.R. 676 Universal Healthcare Caucus lead by Congressman CONYERS, the Women's Caucus, and the Children's Caucus, I have continued to carry the flag of Universal Health Care by introducing or supporting legislation that will help lay the groundwork towards universal access and quality healthcare.

In June, I introduced a health care reform bill that addressed some of the issues that continue to plague our health care system. The MEDICS Act is a House companion bill to Senator BAUCUS's Medicare legislation that sought to unite Congress on a push for crucial Medicare reform.

I am happy to announce that this legislation puts our health care system on the correct path of providing proper medical assistance for our Nation's low income, minority and rural populations. It also works toward resolving the primary care physician shortages as well as the racial and ethnic health disparities.

I have also supported national healthcare legislation such as H.R. 3014 and H.R. 676 which support the elimination of healthcare disparities and universal healthcare based on a single-payer model.

As Americans, we have a strong history, through science and innovation, of detecting, conquering and defeating many illnesses. Quality measures must continue to be adequately funded in order to promote quality, cost-effective health care for consumers and employers.

The Medicare/Medicaid system as well as the private insurance system is still not adequately addressing the cost, population growth, and patient population complexity of Americans. That is why we must look towards another solution.

I urge my colleagues to support our Medicare and Medicaid dependents and vote in support of H. Res. 1368.

Mr. DINGELL. Mr. Speaker, today we protect Medicare's future. The rule addresses a provision that was slipped into the Republican Medicare Modernization Act, MMA, in the dark of night. It was not in the version of the bill that was passed by the House or by the Senate. It is yet another example of Republican efforts to choke off Medicare—an automatic "trigger" that requires cuts to the program if general revenues contribute more than 45 percent of Medicare's revenues.

My colleagues on the other side of the aisle have long tried to end Medicare, and failing

that, to let it wither slowly on the vine. Newt Gingrich said as much in the 1990s, when he was Speaker of the House.

As required by the MMA provision, the President sent a bill to Congress in February with his proposal to meet the trigger requirements. His bill simply shifted costs to patients, and made no improvements to Medicare; a good example of why this "trigger" doesn't work.

Democrats know how to manage Medicare—my father wrote the original bill creating it, and we have been fighting to preserve, improve, and protect the program for nearly 50 years. We do not need gimmicks like an arbitrary "trigger" to do so.

Medicare has protected seniors, improved their health, and helped lift people out of poverty. We must ensure that Medicare beneficiaries continue to have access to their doctor of choice, high-quality hospital care, and prescription drug services.

I support this rule; and I urge my colleagues to eliminate the "trigger" requirements for the remainder of the year.
